

CHROMOMIX COLOUR COLLECTION COLOUR CARD

The INTERIOR COLOUR COLLECTION colour card offers a wide range of shades for interior wall surfaces. Now you can easily bring an individual style to your interior spaces, tailored to your wishes. The shades shown are prepared by tinting Poliflor and Megapol interior wall paints.

Poliflor®

INTERIOR
WALL PAINTS

Poliflor line of products for the protection and decoration of interior walls is intended for simple and practical application according to the "do-it-yourself" system. All products are formulated from raw materials that are harmless to health. Systematic application can cover demanding renovations of interior walls and various exploitation conditions. We offer Poliflor interior paints in a wide range of shades, which are selected and mixed at points of sale.

POLIFLOR

Whiteness without compromise

- high water vapor permeability, supports a healthy microclimate in the room
- resistant to dry wiping
- high whiteness
- possibility of tinting in a wide range of pastel tones from the CHROMOMIX INTERIOR tone card

Interior paint intended for painting walls exposed to moderate loads (living rooms, bedrooms, etc.) and for painting walls in public spaces that need to be renewed more frequently for decorative and hygienic reasons.

Packaging: 2, 5, 10, 15 l

Consumption: 0,20-0,25 l/m² (4-5 m²/l)

POLIFLOR EXTRA

Coverage champion

- high water vapor permeability, supports a healthy microclimate in the room
- resistant to dry wiping
- high coverage
- possibility of tinting in a wide range of pastel tones from the CHROMOMIX INTERIOR tone card

High-coverage interior white paint is intended for the protection and decoration of interior wall surfaces with pronounced unevenness and visible joints, such as gypsum cardboard plates and similar substrates.

Packaging: 5 l, 10 l, 15 l

Consumption: 0,17-0,20 l/m² (5-6 m²/l)

POLIFLOR PERIVI

Perfect protection in 1000 shades

- excellent coverage and a uniform matt surface appearance
- surface dirt can be cleaned with a wet sponge or cloth (washability according to EN 13 300: class 3)
- water vapor permeable
- resistant to influence of alkali from substrate
- produced in tinting bases (B1/B3): possibility of tinting in a wide range of pastel and deep tones from the CHROMOMIX INTERIOR tone card

Interior washable paint, intended for the protection and decoration of interior wall surfaces of residential and public spaces, exposed to heavier loads (wear, dirt and spills), such as hallways, children's rooms, kitchens, bathrooms, etc.

Packaging: 2, 5, 10, 15 l

Consumption: 0,17-0,20 l/m² (5- 6 m²/l)

POLIFLOR GREEN

The enemy of mold

- prevents the formation of mold on the wall surface for a longer period
- surface dirt can be cleaned with a wet sponge or cloth (washability according to EN 13 300: class 3)
- water vapor permeable
- releases a refreshing fruity scent during drying
- possibility of tinting in a wide range of pastel tones from the CHROMOMIX INTERIOR tone card

Interior washable paint for areas exposed to increased moisture concentration: kitchens, bathrooms, basements, etc. Prevents mold/mildew formation over a long period of time, contains an environmentally and health-friendly fungicide.

Packaging: 2, 5, 10 l

Consumption: 0,17-0,20 l/m² (5-6 m²/l)

POLIFLOR LATEX

Top quality for lasting protection and decoration

- matt surface appearance
- resistant to washing with water and aqueous solutions of detergents (EN 13300: class 1)
- high coverage
- resistant to the standard household chemicals
- produced in tinting bases (B1/B3): possibility of tinting in a wide range of pastel and deep tones from the CHROMOMIX INTERIOR tone card

Interior washable paint based on acrylic copolymer dispersion. It is used for protection and decoration of heavily loaded interior wall surfaces exposed to dirt and mechanical loads (lobbies, corridors, halls) in residential and public buildings (kindergartens, schools, hospitals).

Packaging:

base P (pastel shades): 2 l, 5 l, 10 l, 15 l
base TR (very deep shades): 0,93 l, 4,65 l, 13,95 l

Consumption: 0,15 – 0,20 l/m²

MEGAPOL

Economic protection for top results

- good coverage
- high water vapor permeability, supports a healthy microclimate in the room
- resistant to dry wiping
- possibility of tinting in a wide range of pastel tones from the CHROMOMIX INTERIOR tone card

Economical dispersion paint for the protection and decoration of interior wall surfaces in residential and public buildings.

Packaging: 5, 10, 15 l

Consumption: 0,20-0,25 l/m² (4 - 5 m² /l)

POLIFLOR IMPREGNATION

The solution for thirsty walls

- evens out and reduces the absorbency of the surface
- binds loose surface particles
- bridges hairline cracks

Impregnation concentrate for preparing interior walls and ceilings before applying paint or putty. It is diluted with water in the ratio: 1 : 3 (impregnation : water).

Packaging: 1, 5 and 20 l

Consumption/coverage: 0,04–0,05 l / m² (20 - 25 m² / l) (calculated on the undiluted product)

POLIFLOR PUTTY

To make the job "go smoothly"

- easy to apply and sand
- for manual and machine application
- adheres well to all types of wall surfaces
- water vapor permeable
- hardens quickly

Ready-made dispersion based putty for leveling and smoothing interior wall surfaces.

Packaging: 3, 10, 25 l

Consumption: 0,80–1,50 kg/m², depending on the roughness of the surface
